

CA	Criteria: Suspect, Prospect, Client, Project, Finalist	Unique Company Identifying Number	Notes:
P	P	1	project consultant, biochar producer
S	S	2	Biochar Retort Extraction Device- Andrew Wells the project's sponsor has constructed a continuous retort where biomass enters and exits simultaneously. The team was tasked with creating an extraction mechanism that cools and collects biochar without letting air into the pyrolysis chamber. Biochar Retort Extraction Device
	F	3	precision agriculture
C	C	4	Biochar Producer, looking for ownership/partnership
S	S	5	Research digesters and Fermenters, academic collaboration, commissioned research, equipment hire
S	S	5	Research digesters and Fermenters, academic collaboration, commissioned research, equipment hire
P	P	6	finance; private commercial real estate lender
F	F	7	Biomass processing project developer
C	C	8	biochar producer
C	C	8	biochar producers
S	S	9	marketer, producer
P	P	10	education, business development consultant
S	S	11	biogas upgrading systems to purify biogas to renewable natural gas, CO2 recovery
S	S	12	full-service pipe system supplier local and district biomass heating, digester fermentation heating
S	S	16	activated carbon production
C	PJT	14	Biogas, Soil amendment, compost producer, Biochar purchaser
P	P	15	State Agency, technical assistance
C	C	16	biochar producer, biochar system technology provider
S	S	17	biochar producer
PJT	PJT	18	biochar and biochemical producer

C	C	19	research, demonstration production, user facility
S	S	20	Dewpoint, emission, oxygen analysis; gas calorimeter, flowmeter
S	S	21	biogas and LFG upgrading, gas desulfurization, biosolids thermal hydrolysis
S	S	22	dairy solids separation, bedding composting, sand separation, manure mumping
S	S	23	Industrial Energy Services, Renewable Energy and Environmental Controls for Biogas and Wood Waste
S	S	23	Industrial Energy Services, Renewable Energy and Environmental Controls for Biogas and Wood Waste
S	S	24	dairy manure handling systems, drum composter
	S	25	project developer work limited to work for the University biogas project, consults on other related issues
S	S	26	a leading global supplier of environmental solutions and engineered products tailored to meet customers' industrial process requirements. We offer a complete portfolio of air pollution control technologies, drying and curing systems, and material handling equipment.
S	S	26	a leading global supplier of environmental solutions and engineered products tailored to meet customers' industrial process requirements. We offer a complete portfolio of air pollution control technologies, drying and curing systems, and material handling equipment.
C	C	27	Biogas Engineering, technology provider
S	S	28	biogas system equipment, service provider
S	S	28	biogas system equipment, service provider
S	S	28	biogas system equipment, service provider
	P	29	project developer for Indiana site, feedstock
C	PJT VT	30	General environmental service, waste water cleanup, nutrient products
S	S	31	biogas cleanup to RNG, prototype development, design engineers, material development adsorptive, reactive and catalytic materials for applications that include decontamination, chemical defense and demilitarization
S	S	32	biobased polymers
P	P	33	research , education, consulting
P	P	34	project finance, tax, contract, legal services
S	S	35	Engines, Generators, Power Transmissions
C	C	36	Lender
S	S	37	biogas system equipment, service provider
S	S	38	biogas system equipment, service provider
	S	39	biogas producer, soil health initiative
S	S	40	Public Benefit Corporation, project development, market biogas/biochar with corporate partner offset
S	S	41	renewable energy company, retrofitting in WI for pipeline injection
	C	42	Biogas

S	S	43	biogas system equipment, service provider. OWS has developed innovative and patented designs for biogas plants, with a pretreatment, digester concept and post-treatment adapted to each type of feedstock.
S	S	44	biochar producer
S	S	45	biogas system equipment, service provider
S	S	45	biogas system equipment, service provider
C	C	46	biochar/fertilizer producer
C	C	46	biochar/fertilizer producer
C	C	47	Biochar Producer
C	C	48	low pressure compressor pumps to bring biogas to larger clean and compress facility, gas cleanup equipment
P	P	49	biochar producer, related to Tigercat equipment manufacturer
P	P	49	biochar producer, related to Tigercat equipment manufacturer
S	S	50	electrical control out building containerized
S	S	51	waste bins, biomass handling management systems
S	S	52	Product depackaging for repurposing organics, biogas feedstock, animal nutrition, compost
PJT	PJT	53	biochar producer
S	S	54	
C	C	55	biochar producer, minerals, microbials
P	P	55	all bioeconomy services, get more information at website
P	P	55	all bioeconomy services, get more information at website
	PJT	56	Protein product/animal
P	P	57	education, business development consultant
P	P	58	sewer sludge, digestate, biomass waste drying; pelletizer, pumps, conveyors
C	C	59	biochar and bioenergy producer
S	S	60	grinders, biomass material size reduction
P	P	61	They provide gas upgrading technology for project developers and are focus on larger animal agriculture biogas projects, keep on list and send updates, will send clients our way
P	P	61	They provide gas upgrading technology for project developers and are focus on larger animal agriculture biogas projects, keep on list and send updates, will send clients our way
